Before the race you will receive an email with a link to a countdown App.

When you access this App, you will get a countdown to YOUR start time for the race on your smartphone. This is done with/by access to the Internet while on the water.

People who used this feature in a previous Eastern YC Pursuit races have found this very helpful. This is in addition to our 1 minute and 10 second countdown on VHF.

The screen below looks like this <u>before</u> the course is selected & shows start time for each course.

The screen below looks like this <u>after</u> the course is selected & shows your start time plus a countdown in HH:MM:SS until your start.
