

Dear Bakers Light TT competitors,

We're working with Regatta Management to further enhance the results for the Time Trial. I'm adding this to the SI's but for those of you registered already, **when you sail the course please record the information below by either email or text.** This data calculates your finish position in class but also (coming soon) will generate your theoretical elapsed time based on your yacht's polars. This will make the TT an interesting training tool as you'll be able to compare your time to your theoretical calculated "lap time".

If you have the information below from your previous attempts please send that along and I'll get it entered.

We're working with the Regatta Management results page, apologies if it goes down from time to time, it's an entirely new format they're working on, but we think will result in a great tool for future events and practice.

If you have any questions don't hesitate to email or give me a call.

Start time

Finish time

Start/finish buoy

Marks to Port or Starboard

Average Wind Strength

Average Wind Direction (magnetic)

Regards,

MYC race committee
