

# SAILTRACKER

## Race Tracking Setup - Transponder

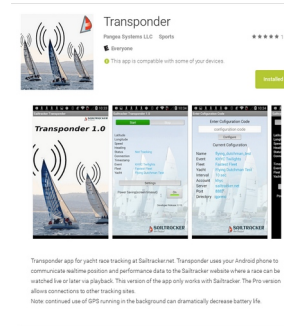

Tracking during the race is performed by the free phone app "**Transponder**", available for **iPhone** and **Android**. The app can be found on the App Store or Google Play by searching for "**transponder**" and "**sailtracker**". To set it up for your boat just enter the configuration code listed above. Detailed instructions are available at <http://www.sailtracker.net>

**Get the app:**  
(search "Transponder" and "Sailtracker")

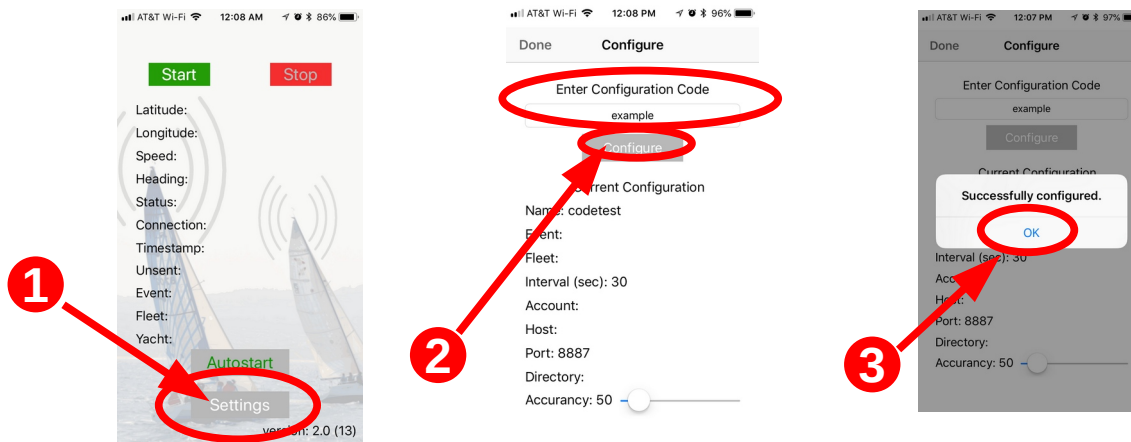

### Apple App Store

### Google Play Store

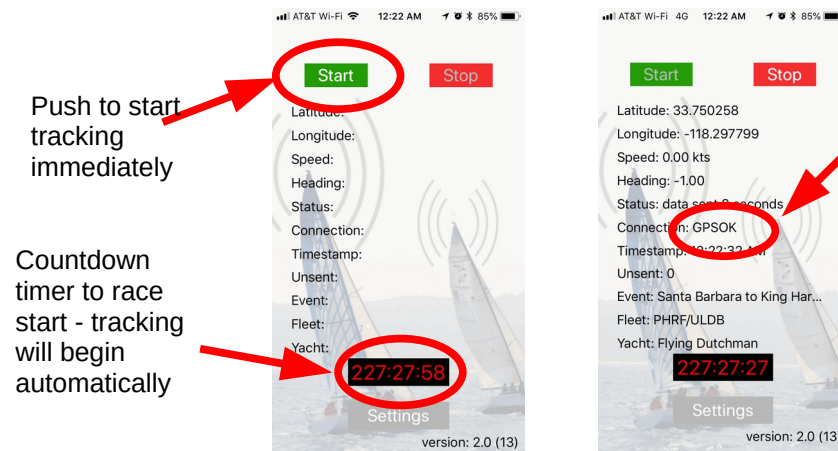

**Enter your boat's code** (printed above):

*iPhone shown - Android similar*

## Start tracking

"GPSOK" means it's working

**FOR BEST RESULTS:**

- Connect phone to external power/battery for longer races. GPS uses a lot of power.
- Put the phone on the boat in a place with the least amount of objects between it and the sky.

Spectators can view tracked yachts at <http://www.sailtracker.net/tracker/khspin1204>

If you have any questions or difficulties before the race you can email: [info@sailtracker.net](mailto:info@sailtracker.net) or call 424.262.4725
